

Scan. Validate. Checked-In™

Efficient and affordable digital ticketing solution. No app needed.

Digital ticketing made effortless.

Local technology to support and empower local events.

SafeTicket is our answer to numerous requests from our beloved vendors looking to streamline their digital ticketing and contact tracing compliance.

Through these conversations we identified and understood the operational requirements along with privacy, security and health authority aspects to deliver SafeTicket. Combined with local development, (actual) tech support and greater customisation we firmly believe we can help any event, anywhere get back in action and deliver an engaging and easy event for all.

Seamless ordering everywhere...

SafeTicket has been designed with the highest mobility approach. Our ordering system works seamlessly on any device and has been optimised that each order can be completed within moments.

Scan without fuss.

No fancy scanners, no extra software, no unnecessary hassles. Scanning tickets shouldn't be complicated and we've built it an easy to share link with each ticketed event to activate any device with a camera* to scan and validate tickets.

Older mobile phone or do not feel like scanning?

Look up your visitor booking via phone number or email, then tap to validate your visitor. Easy as!

Event organisers and managers will manage their unique link with their team and volunteers, with training and tips provided before each event to make sure your ready come the big day!

Compatible on both Android and iOS phones.

*Minimum requirement: Android 10 and above or iOS 13 and above.

 All data is stored sovereignly within our private Sydney server.

 Proudly developed and maintained in Queensland's backyard.

Solution supported by:

JUNIOR CHAMBER
of COMMERCE
BRISBANE

 All data is encrypted using AES-256-CBC cipher. The 'gold standard' and NIST approved.

 Consulted with QHealth - Audited by DCHDE.

System audited and tested by:

Backing small businesses.

Built within the Queensland Junior Chamber of Commerce and supported by CCIQ, we are as local as it gets.

Everything is developed with accountability locally in Queensland. With local support and customer success team. Our commitment is to ensure that the revenue generated will be used to provide employment and economic opportunity for our local community.

Australian Data Center - All data stored sovereignly on Australian shores under Amazon Web Server (AWS) in Sydney.

Our office is based in the Brisbane Technology Park - Eight Mile Plains. Drop by and say hi!

Security and compliance.

SafeTicket is built upon the SafeVisit framework - a platform that we all know and love.

SafeVisit was the preferred contact tracing platform throughout the pandemic for more than 7,000+ businesses, including council and local governments. Its framework was consulted with Queensland Health to ensure accountability and requirements are exceeded.

Tested and audited - SafeVisit platform has the cyber security and best practice audit certification, commissioned by the Qld Department of Communities, Housing and Digital Economy.

Full report is available on request.

Unite against COVID-19

Naturally COVID Safe.

The core of SafeTicket is its ability to help organisers in their COVID Safe Plans.

Say goodbye to separate check-ins for ticketed events and venues. SafeTicket's reverse flow scan will validate the visitor's ticket and at the same ticket, automatically create their contact tracing record. This ensures COVID compliance and fits within COVID Safe Plans applicable for any industry and event.

Ultimately, removing the need to have visitors perform a separate check-in process for that smooth entry at the event's gate.

We know that 2020 and the effects of coronavirus have been tough, especially for the events & expos industries. We're here to help kickstart these amazing events!

Payment Sorted.

Our fair pricing* is supported by Stripe, a global payment infrastructure.

We understand how hard it was last year for events of all shapes and sizes to continue their operations, because of this SafeTicket pricing is built with the fairest pricing model. No extra or hidden fee, no nasty surprise

Free event?

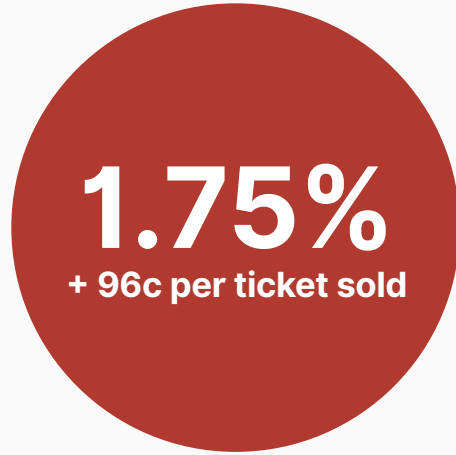

Problem solved. Use our platform for at no charge!

Thank you for your support. 🙌

Revenue generated will help us to continue the platform free of charges for those free events whilst providing employment and economic opportunity for our local community.

*Lower rates available for those who can demonstrate membership of their local chamber or not for profit event.

Professional

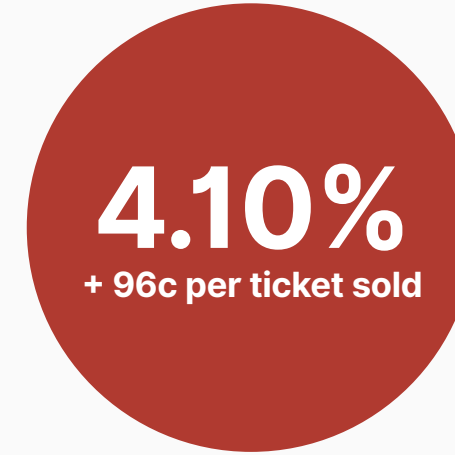

Get your event up and running.

Ready to scan?

Our proprietary event scanner is a full web based experience* with no app needed. Scan the QR code to get a hands-on experience with our event scanner and try to validate your purchased ticket from above by either scanning or searching through phone number.

*Minimum requirement: Android 10 and above or iOS 13 and above.

Be Bold. Be Unique. Be Different.

With SafeTicket custom wristband

Events are meant to be filled with fun, laughter and surprises. Our custom designed wristbands would perfectly complete the occasion.

What better way to engage your audience at your event than with customised wristbands complete with digital tie ins.

Impress both your visitors & sponsors.

Don't leave this valuable real estate bare and under-utilised!

Our wristbands are designed just for you and for your event to set the first impression perfectly, with a colourful and impact message ready to take your crowd on an epic journey.

Then, through the power of a singular QR code, your audience is digitally engaged and informed like they've never been before.

We can deliver event schedules, site maps, social media engagement pieces, digital scavenger hunts, contactless payments, ordering and more with just a **Scan. Tap. Launched.**

Not only will this empower greater engagement, it will enhance sponsorship opportunities, partner recognition pieces and valuable data insights into your event.

Your audience is ready, let's engage with them and let's make your event that much better!

Affordable Technology.

We keep our prices low to ensure that this technology is affordable to everyone.

*Printing lead time is up to 3 weeks

Proudly supporting all of these events.

We strive to ensure we are doing our best to bring back events to our local community.

Fraser Coast Agriculture Show Society Inc.

Fraser Coast Show 2021.

Our experience of SafeTicket was amazing. Easy to use, the tech team was able to guide us from the initial supply of information, add special requests, fix hiccups from our end and provide plenty of support all the way through to the end of our event, including data breakdowns. Could not be happier with the service, support and cost to our committee. We would definitely recommend the team and will be using them again.
